Investment Objectives and Strategies

To increase the value of your investment over the long-term by investing primarily in equity securities of established companies which trade on recognized exchanges around the world and that are trading at a discount to their long-term value.

The Portfolio Manager employs a value-driven, absolute return approach. At the stock level, the Portfolio Manager identifies companies that are believed to be fairly valued or undervalued in relation to their potential long-term earnings growth. At the country level, the Portfolio Manager seeks to heavily overweight holdings in countries that are expected to provide good value relative to their long-term prospects and underweight or avoid holdings in countries that are not.

Disclaimer

BMO Mutual Funds are offered by BMO Investments Inc., a financial services firm and separate legal entity from Bank of Montreal.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus of the mutual fund before investing. Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed or covered by the Canada Deposit Insurance Corporation, the Régie de l'assurance-dépôts du Québec or by any other government deposit insurer. The value of mutual funds changes frequently and past performance may not be repeated.

On July 31, 2009, BMO International Equity Fund was merged into BMO International Value Class, with unitholders of BMO International Equity Fund receiving units of equivalent value of BMO International Value Fund.
